I have lived in Hamajima since I was born. My town has beautiful scenery and an exciting festival. I would like to tell you about "Ise-ebi festival".

## ○ What's Ise-ebi festival ?

Ise-ebi festival started in 1961.

People make a wish for a large catch of fish with this festival. Many people come to this festival every year.

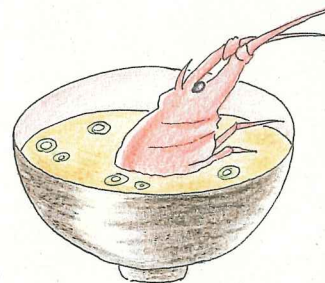

## ○ Festival's food shop

They sell Ise-ebi miso soup at Ise-ebi festival.

We call it "Choju-ziru". It's very delicious.

I like it very much.

There are Ise-ebi, negi and aosa in a cup of Choju-ziru.

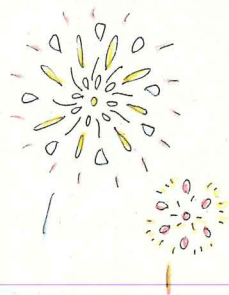

## ○ Points of the festival

• The festival has a traditional dance. It's called "Jakkope odori". People jump as Ise-ebi children. I have joined in this dance since I was a child. This dance is fun. They wear many kinds of clothes. For example, team T-shirt, happi, yukata and so on.

• Finally people carry a portable shrine. There are two kinds of portable shrines. There is a man portable shrine and woman portable shrine. They move them hard. People are looking forward to seeing this performance.

• In the end of the festival we can see fireworks from the beach. They remain forever in our minds.

I hope that Ise-ebi festival will continue for the future.

And I want to make it more exciting. Why don't you come to Ise-ebi festival?

I think you will have a good time.
