●●● Mikimoto Pearl Island ●●●

* About Mr. Mikimoto and culture pearls.
Natural pearls and cultured pearls are made differently.

Mr. Mikimoto invented the method for cultivating pearls in 1893. There are many different processes needed to cultivate pearls.

The fishing grounds and conditions are also important.

There are many different kinds of pearls and they come in many colors. For example, there are pink, yellow, black, and white pearls.

I have the pink pearl. It is very small, but I was very glad when I got it.

* So why don't you have a look at our beautiful pearls?

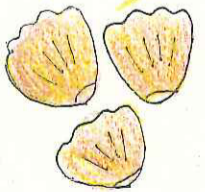

●●● About Island ●●●

There are a lot of interesting things there.
There is a woman divers show, a pearl museum and a restaurant. Besides, you can enjoy it. You can also buy madeleine cookies there!
It's a specialty of the island. The cookies are made from the powder of pearls so it's high in calcium. Please try them when you visit the island!

(テーマを選んだ理由)

私は初めて貝の状態から真珠を取り出すのをみたとき、とてもかっこいいなと思いました。
お世辞にもかっこいいな光を輝かせているかたがらといろいろ不思議に感じましたからです。
私が三重県の真珠を見たとき心がかくかくしていたので外国の人々にもこのように体験をして書かす気持ちになつてほしいなと思いました。
